

WOODIGITAL – Dual Learning for Improving Digital Skills of Young Woodworkers

The purpose of the WOODigital project (2020-22) is to **improve the digital skills** - Industry 4.0 - of **young Europeans** (ages 18 to 35) working or interested in **working in the wood and furniture sector**, through dual (VET - Vocational Education and Training) training methodology.

What is new in the project?

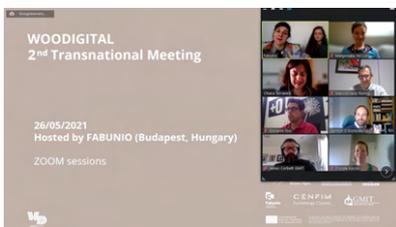

WOODIGITAL project website now available

We have recently launched the WOODigital project website (www.woodigital.eu). The website is available in five languages, in English and in the four languages of the project partners: French, Italian, Hungarian and Spanish.

The website has been designed as a bidirectional communication tool between the WOODigital project partners and its main target...

2nd Transnational Meeting

The 2nd transnational WOODigital meeting took place on May 26th, 2021, via the Zoom Online Meeting Platform.

Although the partners could not travel to Budapest (Hungary) in person due to Covid-19 restrictions, spirits were high and the exchange very dynamic and fruitful. The meeting started with an informal exchange between project partners followed by a team building live quiz about...

Skills, Knowledge and Competences for the Woodworker 4.0

From the research "The Woodworker 4.0. Market needs, knowledge, skills and competences required in the context of the Twin Transition (Green and Digital) in the furniture sector" carried out in the context of WOODIGITAL project activities, it emerges that the wood-furniture sector is facing a phase of Twin transition at a European level "Green and Digital" which looks more like a new revolution than a normal evolution. Imposed on the one hand by the ongoing environmental...
